Learn about each event found

Develop your understanding of technical analysis. Featured Ideas' transparent commentary allows you to better understand patterns and trends found.

1. Hover over any pattern name to learn more how the pattern developed and what it means for it signals as a trade idea.
2. Check out "What Recognia Found" for a breakdown of all the Technical Events that have occurred on that currency pair

The screenshot displays the Recognia trading platform interface. At the top, there's a navigation bar with 'FOREX (10)' and various currency pairs like EUR/GBP, USD/EUR, and USD/JPY. The main focus is on the 'USD to Japan, Yen' (USD/JPY) pair, showing a price of 109.743 at 18:13:16 GMT. A 'Triple Bottom' pattern is highlighted on the chart. Two callout boxes provide detailed information:

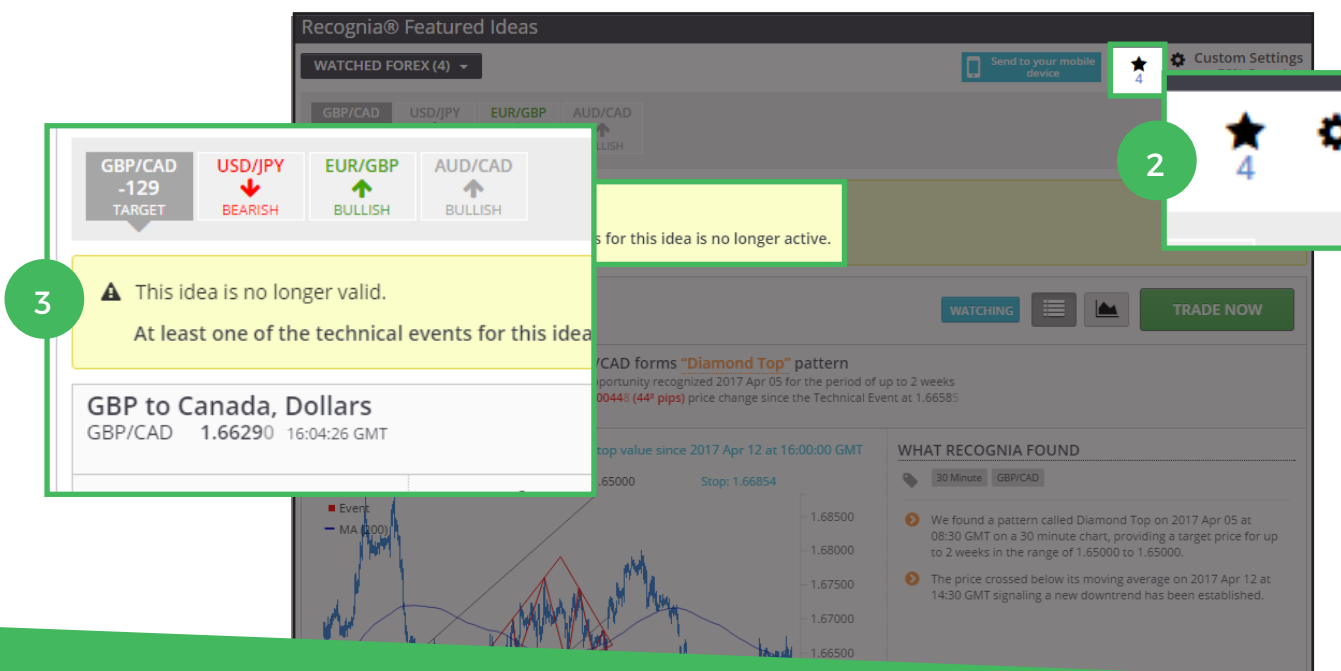

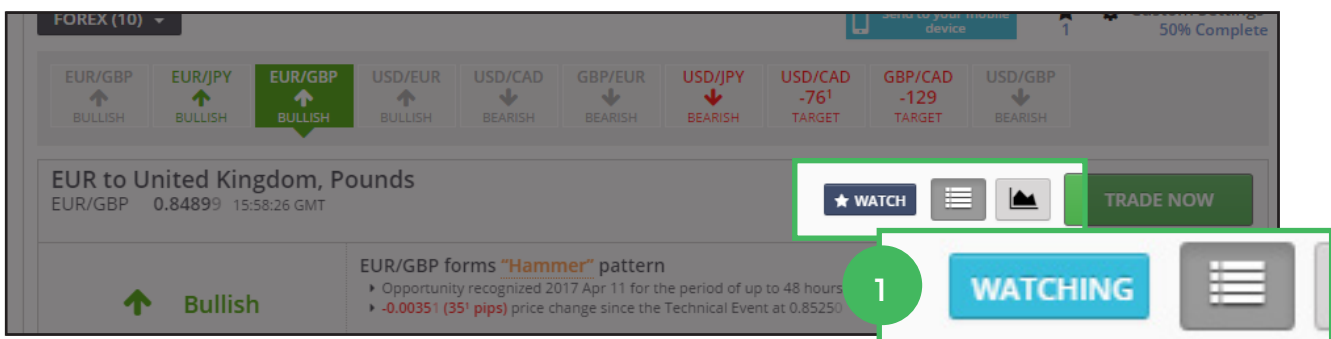

1. Triple Bottom
Tells Me: The price may have hit a bottom and seems to be turning around to form a new uptrend
The Triple Bottom starts with prices moving downward, followed by three sharp lows, all at about the same price level showing a test of a support level. Volume diminishes at each successive low and finally bursts as the price rises above the highest high--a decisive breach of that resistance level. This breakout confirms the pattern as a sign of BULLISH price reversal.

2. WHAT RECOGNIA FOUND
30 Minute USD/JPY
We found a pattern called Triple Bottom on 2017 Apr 12 at 18:00 GMT on a 30 minute chart, providing a target price for up to 48 hours in the range of 110.090 to 110.160.
The price crossed above its moving average on 2017 Apr 12 at 17:30 GMT signaling a new uptrend has been established.

Watch an idea

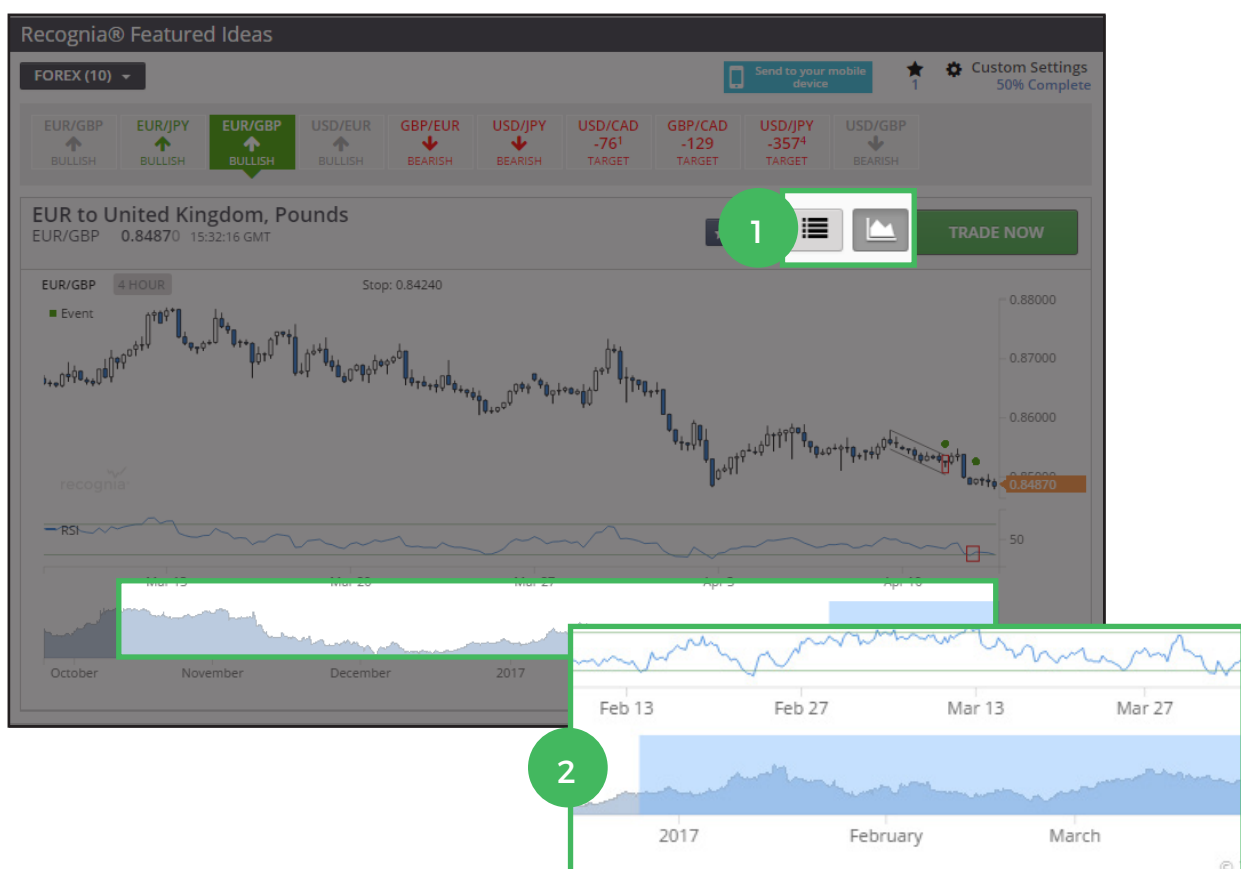

Save your trade ideas to see how they perform over time.

1. "Watch" an idea by clicking the button beside the chart views.
2. Use the star in the top right corner to view all your saved ideas
3. If the idea has expired, we'll let you know.

Want a closer look?
